## KEILHAUER SHARES 2020 CSR

### VIDEO CSR PROVIDES A PEEK BEHIND THE CURTAIN OF KEILHAUER INNOVATION

**April 22, 2020 (Toronto)** – As part of its annual recognition of Earth Day, Keilhauer released their Corporate Social Responsibility (CSR) Report today. In an effort to increase transparency with customers and their community, the 2020 report will be shared through a series of videos, which showcase Keilhauer’s culture, facility, and the stories behind our most innovative and sustainable products.

“Sustainability is at the heart of our culture, our design process and our company,” says President Mike Keilhauer. “This year, we wanted to throw open the doors and invite the design community to see what we are doing, and see some of the faces that have helped us pursue our goal of Closed Loop Manufacturing.”

Closed Loop Manufacturing is the pinnacle of Keilhauer’s sustainability goals – manufacturing without producing any waste, minimizing our reliance on the Earth’s finite resources, and stopping the use of any chemicals that cause net-harm, such as those on the Red List. In 2019, Keilhauer continued to pursue this goal and achieved the following highlights along the way:

- 11 per cent reduction in greenhouse gas emissions
- 11 per cent reduction in energy usage
- 100 per cent of energy usage offset with renewable energy credits
- 0 water wasted in manufacturing processes
- 87 per cent success rate of waste diversion across all our facilities
- 0 waste to landfill
- 7 time recipient of Canada’s Greenest Employer Award
