

Keilhauer launches latest textile card and 5 Clicks partnership with Momentum Group

Introducing a new collection of versatile, sustainable textiles

March 30, 2022 (Toronto) – Announced today, Keilhauer and Momentum Group have partnered once again to launch a new textile card, offering a selection of 12 industry leading patterns in four high-performing fabrics: Clean Vinyl, Silica, EPU and Crypton® Green. This card is a blend of woven and coated fabrics, available in a color palette of calming blues, greys and blacks.

Momentum is a leading supplier of sustainable contract textiles, and a frequent textile card collaborator of Keilhauer's. Their shared passion for environmentally-conscious products that improve our planet and enhance our designs has resulted in a valuable 15+ year partnership that continuously provides upholstery options that remain current and easily adaptable to any design environment.

The Sustainable Performance card is a three-panel card combining four innovative textile categories. While previous Keilhauer-Momentum textile cards have focused more on the commercial corporate markets, all fabrics included in this latest collaboration provide sustainable, cleanable and high-performing solutions relevant for all spaces, from workplace and healthcare, to education and hospitality. This carefully-considered collection provides protection for furniture products as well as great design.

All Momentum fabrics are made with recycled or natural fibers, and all of their products are GREENGUARD certified. Each of the textiles within this partner card has been proactively reviewed to meet Keilhauer's product requirements and can be placed on all upholstered products.

In addition to the launch of their latest textile card, March 30 also marks Keilhauer joining Momentum's 5 Clicks program - a tool that links Momentum's pre-approval and grade-in information to real-time inventory data in just five quick steps. The first and only of its kind in the contract textiles industry, 5 Clicks allows Keilhauer customers to circumvent the time-consuming process of verifying grade-in and pre-approval through multiple channels, and safeguards against specifying a product that is not in stock. Keilhauer's Momentum textiles are now searchable on 5 Clicks, available to use at memosamples.com.
