Keilhauer Launches Textile Card Partnership with HBF Textiles

Keilhauer announced the launch of their new textile card partnership with HBF Textiles, a leading producer of contemporary textiles that blend art and craft to create inspiring products. In a first for Keilhauer, this will be a digital-only partner card, conveniently providing designers with world-class, unique textile options with an emphasis on sustainable materials.

“We are thrilled about this new partnership with HBF Textiles,” said Maggie Keilhauer, Product Manager.

“HBF offers interesting and unique textiles that have patterns and colors not previously found within the Keilhauer textile library. We look forward to seeing all the designs that will be made possible for designers through this new textile partnership.”

With the launch of this new textile card, Keilhauer will now offer ten HBF Textiles collections for all of their product lines, which are configurable at [Keilhauer.com](https://www.keilhauer.com). All HBF Textiles offered by Keilhauer are partially constructed from either recycled content or rapidly renewable content. Additionally, all HBF Textiles are Third Party Certified at the SCS Indoor Advantage Gold level. **BoF**
