

KEILHAUER

Keilhauer Introduces Coast: A Modern Textile that Combines Performance and Aesthetic

A high-performance textile designed to elevate modern spaces with tonal depth and tactile sophistication.

January 14, 2025 (Toronto, ON) – Keilhauer, a leading North American designer and manufacturer of commercial furniture, is thrilled to announce the launch of **Coast**, the latest addition to its extensive textile portfolio.

Coast is a high-performance fabric that seamlessly combines tonal depth and texture, adding refined character to any design. Its unique Mouliné yarn is crafted by intertwining contrasting-colored threads, creating a dynamic, ever-changing visual effect that feels both captivating and unique. This distinctive texture draws the eye and invites the touch, delivering an engaging sensory experience.

As its name suggests, Coast serves as a harmonious meeting point of strength and elegance, offering a palette of 13 neutral-to-warm hues inspired by rich, earthy landscapes. Whether anchoring a bold statement or complementing a minimalist design, Coast's versatile color options provide the perfect foundation for creativity.

Aligned with Keilhauer's commitment to sustainability and quality, Coast is made with 20% recycled yarn, is PFAS-free, and meets the rigorous OEKO-TEX® Standard 100 certification for safety. Crafted in Barcelona, it also boasts impressive durability, withstanding up to 80,000 abrasion cycles, making it as practical as it is beautiful.
